AND

The Guru Nanak Dev University, Amritsar, (hereinafter called as GNDU which the expression shall unless repugnant to the context or meaning thereof be deemed to mean and include its successors and permitted assigns) of the Second Party.

WHEREAS,

Both GNDU and NHA are desirous of working together with mutual cooperation for dissemination of respective expertise in civil/highway engineering field through the road infrastructure development.

NOW, THEREFORE, IT IS HEREBY AGREED BY THE PARTIES AS FOLLOWS:

1. INTENT:

National Highways Authority of India (NHA) intends to associate the GNDU who shall voluntarily contribute its share of experience for betterment of the highway infrastructure.

2. SCOPE OF THE MoU

The primary scope of MOU inter alia includes the following:

- (i) NHA shall facilitate the faculty, researchers and students of the Institute to familiarize with the latest trends in the highway/transportation sector with a common objective of sharing the knowledge in their respective domain. This will, in one hand, facilitate to bridge the industry-institution gap and familiarize students with the latest trends in industry and on the other hand the research output could be suitably adopted in practice by NHA.
- (ii) The Institute shall adopt nearby stretches of NHs as specified in the **Appendix-1** as a voluntary initiative under ambit of Institutional Social Responsibility (ISR). The list of stretches may be modified by deletion/addition by mutual consent of NHA and GNDU.
- (iii) The adopted stretch may be used as a field of study for faculty, researchers and students.
- (iv) NHA shall offer internship to 40 number of undergraduate/postgraduate students of the Institute. The duration of internship shall be of 2 months in a year based on experience and field requirement, the same may be reviewed in subsequent years.

(v) NHAI shall pay stipend @ Rs.8000/- (Rupees Eight Thousand only) per month for undergraduate students and @ Rs. 15000/- (Rupees Fifteen Thousand only) per month to Postgraduate students. All other arrangements including stay shall be responsibility of Institute or the concerned student/facility/scholar/researcher. However, depending upon availability, NHAI may extend transportation facility to the interns within the project jurisdiction.

3. Roles and Responsibilities:

The scope of this MOU shall be carried out in a collaborative mode between NHAI and GNDU. The Roles & Responsibilities of NHAI and GNDU in performing the defined objective shall be as follows:

NHAI

- a. NHAI shall provide the list of potential candidate National Highway stretches for adopting by the Technical Institute;
- b. NHAI shall facilitate availability of relevant data required with specific reference to the above stretches through its field office/consultant/concessionaire/contractor engaged in the project ;
- c. NHAI will nominate an officer as a point of contact for all correspondence in carrying out the defined objective;
- d. NHAI shall facilitate the faculty, researchers and students of the Institute to give access to the site of the identified stretch being adopted by the Institute, relevant documents for the purpose of activities to be carried by these intellectuals of the Institute;
- e. NHAI through its field office/Consultant/Concessionaire/Contractor engaged in the project, as per reasonable requirement, will disseminate and familiarize the latest trends and know how in highway/transportation sector in general and the identified project in specific to the authorized faculty, researchers and students of the Institute;
- f. NHAI may suitably adopt the research output and feedback received from the Technical Institute in practice for qualitative improvement as deemed fit at appropriate stage of implementation.
- g. NHAI may support creation of Lab infrastructure in the Institute and can sponsor relevant research project that helps in using alternative resource material and improving quality of roads.
- h. The NH stretch adopted can be co-branded with the associated technical Institute by NHAI.

GNDU

- a. The Institute shall adopt stretch(es) of NHs as specified in the **Appendix-1** as a voluntary initiative.
- b. The Technical Institute through its authorized faculty, researchers and students will carry out periodic investigation and give suitable suggestions for improving the efficiency of existing highway asset inter alia covering the following aspects:
 - (i) Improvements in safety provision by removing existing deficiencies;
 - (ii) Improvements in continual maintenance of the stretch using new technologies;
 - (iii) Localized solutions for removal of congestion points thereby increasing the average speed of traffic flow;
 - (iv) Improvements in the riding comfort through cost effective measures based on innovative technologies on practices applicable in the area;

(v) Viability of new way side amenities for road user based on the existing traffic pattern and user expectations;

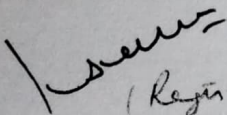

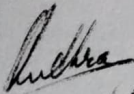

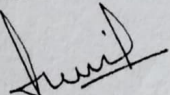

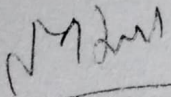

(vi) Potential solutions to old recurring problems based on local experience etc.

c. The Institute may also associate with the Consultants/NHAI during conceptualization, design and project preparation of new projects and suggest the relevant parameters and innovations based on experience specific to the site climate, topography and resource potential for better socio economic outcome

d. GNDU will nominate a coordinator as a point of contact for all correspondence in carrying out the defined objective as well as inform, from time to time.

4. EFFECTIVE DATE AND PERIOD OF MOU

This MoU shall come into effect for all its intents and purposes from the immediate effect and shall remain valid for a period of 5 years from the date of signing unless terminated earlier by mutual consent by either party by giving 60 days' notice in writing to the other party.

GNDU signs pact with NHAI for safer highways

TRIBUNE NEWS SERVICE

AMRITSAR, OCTOBER 29

Guru Nanak Dev University (GNDU) has signed a memorandum of understanding (MoU) with the National Highways Authority of India (NHAI) to conduct innovative research on different aspects, including highway design, safety and beautification.

The GNDU will conduct research on around 137 km length of the national highways passing through Pathankot, Gurdaspur and Amritsar districts.

Faculty of the GNDU and its scholars would conduct research on NH-3 (Amritsar-Wagha Border Section) and NH 54 (Pathankot-Amritsar section) on the aspects of geometric and pavement design, road safety audits and beautification plans. V-C Prof Jaspal Singh Sandhu said the university experts would suggest innovative ways to improve road sections and junction designs, pavement materials, installation of traffic control and regulation

devices to improve safety standards. Innovative urban design elements along the highways would be proposed to make the highways attractive to commuters.

Department of Planning, Architecture and Civil Engineering would be working collectively in the research efforts. "State-of-the-art research labs on material testing, safety and design are proposed to be established in

the university with the help of the NHAI. Students and researchers will get financial assistance from the NHAI to conduct their research. The NHAI will also offer stipend based internship/training to campus students," he said.

Prof SS Behl, Dean Academic Affairs, Sunil Yadav, Project Director, NHAI, Amritsar, and Dr KS Kahlon, Registrar, among others, were present on the occasion.
